## DRAGNET IS OUT OVER THE STATE FOR PROFITEERS

Citizens Washington C. H.  
Guilty of Making Ex-  
cessive Profits

## BOUGHT CORN AND RESOLD IT AT EXORBITANT PRICE

Must Refund Money and  
Resell All corn Not Delivered

Columbus, Feb. 14.—The federal food administration in Ohio has a dragnet out for speculators and profiteers among distributors of seed corn it became known today when Federal Food Administrator Croxton dealt with the first violations of the food control law against profiteering.

Robert Howat, Washington Court House banker and Benjamin Jamison, Fayette county real estate dealer, were held to be guilty of profiteering and speculating when it was shown upon investigation that they had admitted buying 557 bushels of old corn at \$2 a bushel and selling it for seed corn at from \$5 to \$6.50 a bushel. Facts brought out in the investigation and subsequent hearing before Administrator Croxton showed that the two men bought the corn from a relative of Jamison, paying \$1.114 for it. Howat had the corn moved to Washington Court House late in January and started selling it at \$5.50 except 50 bushels which sold for \$6 and 50 bushels which brought \$5. No work, care or trouble was expended in handling the grain to speak of and not more than 90 grains were tested. It was charged by the food administration. The \$1.114 worth of corn brought \$2,275.50 which Howat and Jamison divided.

Three orders were issued in the case. The men first must resell all the corn, which has not been delivered because of bad roads, at \$2.50 a bushel for use as seed corn. If it is good for that purpose, they must refund to all those who have paid for their corn the difference between \$2.50 and the exorbitant price of \$5.50 and \$6.50 a bushel. The food administrator will get duplicate receipts showing each sale made and prices paid.

Mr. Croxton today said that the price of \$2.50 fixed on the corn is not to be construed as fixing a price on seed corn, as it was applied only in this specific case. At that figure, a 30 per cent profit to Howat and Jamison is assured, as the cost of handling the corn did not exceed 20 cents, making their outlay \$2.20 a bushel.

## INDUSTRIES ARE TO RESUME SOON

Pittsburg, Feb. 14.—Industries of the Pittsburg district crippled since the first of the year owing to the fuel famine, will resume operations within a few days, according to prominent steel men here, who point out that clearing of the weather situation, with the resultant resumption of coal and coke shipments, will permit the mills to open upon full time early next week. The greater percentage of the industries in question hold government war work contracts.

## NAPOLEON HOMES SURROUNDED BY FLOOD WATERS

Toledo, O., Feb. 14.—Flood waters of the Maumee river surround 75 homes in Napoleon, 40 miles southwest of Toledo. The Maumee river this morning was 19 feet above normal, there arising a "reasonable" five feet of the high-water mark of 1913. Wagons and automobiles were commandeered to save household goods and several families were rescued in rowboats.

## LIFT BAN ON FOUR CANS TO A CUSTOMER.

Columbus, Feb. 14.—Retail grocers may now sell canned goods in sufficient quantities to supply a customer's needs for a "reasonable" time. This was decided upon by Fred C. Croxton, state food administrator, who lifted the "four cans to a customer" ruling.

## CARRY OFF BELGIANS FOR MILITARY WORK.

Havre, Feb. 14.—Deportations of Belgians by the Germans are continuing despite the protestation to the contrary by the German authorities according to information received by the Belgian government. Within the past few weeks the Germans have carried off 2,700 persons from Lokeren, in East Flanders and put them on military work on the west front.

## MANAGER OF MARINE SECTION.

Washington, Feb. 14.—Coastwise and Great Lakes steamship lines operated by railroads today were placed by Director General McAdoo under the supervision of W. H. Peasants, of New York, president of the Ocean Steamship company who was designated manager of the marine section of the railroad administration.

## AMERICANS IN ACTION ON THE TAHURE FRONT

(Compiled from A. P. Dispatches.)  
Interesting developments have grown out of the big French raid in the Champagne region yesterday. Primarily it has been revealed in this connection that American artillery men are in action on the Champagne front. The French official statement of today, in reporting further on this raid, first mentioned in last night's communication noted the presence of American batteries and announced that they had given "very effective support" to the raiders.

It had not been previously known to the public that American troops were stationed at any point along the line other than in the French Lorraine sector they are holding— an indeterminate stretch east of St. Mihiel. The assumption is that the American artillery men mentioned are part of the numbers undergoing instruction by the French before taking up the task of supporting their own infantry. The Butte du Mesnil, near which the raid was carried out, lies in the area in which the great French offensive of 1915 took place.

It is some two miles northeast of the town of Lemesnil-Lex-Hurlus and slightly less than that distance southeast of Tahure, a place frequently mentioned in the official communications.

Tahure, indeed, is named in today's Berlin official report which concedes a French success in the raid near that place admitting that a footing was secured by Petain's troops in a salient of the German positions. Paris announces the taking of more than 150 prisoners in the operation which was carried out on a front of about two-thirds of a mile and reports that the positions taken have been organized.

Uneasiness over the Russian situation in Germany and Austrian official circles is indicated in reports in the German press. The Central powers are said to be uncertain concerning the future attitude of Foreign Minister Trotzky and the Bolshevik government and one Berlin newspaper says that the announcement that the Russian army had been ordered demobilized was a "sham" maneuver.

German leaders are said to have held conferences as to the best course to pursue. One report is to the effect that military operations against the Bolsheviks might be resumed but both Berlin and Vienna appear to be anxious over the probable fate of the many thousands of (Continued on Page 2, Col. 3.)

## VON HERTLING WILL MAKE REPLY TO PRESIDENT WILSON

(Associated Press Telegram)  
London, Feb. 14.—An important peace debate will begin in the German reichstag on February 21, according to a wireless dispatch from Amsterdam. Chancellor von Hertling will discuss the treaty with the Ukraine and reply to President Wilson, Premier Lloyd George and Premier Orlando.

## CLOSING ORDER NOW IN EFFECT IS SUSPENDED

(Associated Press Telegram)  
Washington, Feb. 14.—Unless the return of bad weather brings another break down in railroad transportation enforcement of the heatless Monday program has ended in all sections with the probable exception of New England.

Formal suspension of the closing order was announced yesterday by Fuel Administrator Garfield with the reservation that it may be put back in force before the ten weeks period expires March 25, if weather conditions make it necessary.

The action of the fuel administration was concurred in later by Director General McAdoo who issued a statement calling attention to the danger of more transportation difficulties and the necessity of saving coal.

The preferential coal distribution list established by the closing order, however, remains in force and Director General McAdoo announced there is still adequate reason for maintaining railroad embargoes on non-essential commodities.

Dr. Garfield's announcement gave state fuel administrators authority to continue operation at the closing in their territories if they believe it necessary.

## GOOD ACCOUNT OF AMERICANS ON CHAMPAGNE FRONT

(Associated Press Telegram)  
Paris, Feb. 14.—American batteries took part in the artillery bombardment in connection with the large French raid in the Champagne yesterday, it is announced officially. Effective assistance was given by the American gunners.

(This is the first mention of American batteries on the Champagne front.)  
American gunners are trained by the French before going into active service on their own front. The French official report evidently are some of those undergoing this instruction.

The official French statement of last night reported a large raid on a front of about 1200 metres in the Champagne near Butte du Mesnil in which the French penetrated as far as the German third line. The American sector is in Lorraine, some distance to the east of this point.

## ACTS OF TERRORISM BY RUSSIAN SOLDIERS.

(Associated Press Telegram)  
Stockholm, Feb. 14.—Russian soldiers are reported to be committing shocking acts of terrorism on the Aland Islands in consequence of a statement that Swedish residents have fled to outlying islands, a Swedish ice breaker will start immediately for the islands. It will be followed by rescue expeditions.

The Aland Islands are between Finland and Sweden and belong to Russia. Most of the inhabitants are of Swedish nationality or descent.

## WILL REPORT FAVORABLY ON APPROPRIATION

Billion Dollar Urgent Deficiency Bill Recommended For Passage

## MILLIONS TO BE SPENT FOR MANY MILITARY ACTIVITIES

All Departments to Receive  
Huge Funds For Their  
Operations

(Associated Press Telegram)  
Washington, Feb. 14.—A billion dollar urgent deficiency appropriation bill, the largest of its kind in the history of congress although cut a half billion from original estimates was favorably reported to the house today by Chairman Sherley of the appropriations committee. Debate on the bill, which provides for the immediate needs of the war, navy and other departments, is expected to begin in the house tomorrow.

In presenting the measure Chairman Sherley made public testimony given to the committee by department chiefs during past month of committee investigation.

Huge amounts were asked for various military activities. Among these was a total of almost \$1,000,000 for mountain field and siege artillery in addition to more than \$1,000,000,000 already spent and tracts of \$779,000,000 additional. The testimony of Colonel Ames of the ordnance department, said that the total amount available for this purpose since the beginning of the war under direct appropriations and contract authorizations was \$1,816,000,000, of which amount orders have been placed requiring ultimate expenditures of \$1,252,000,000, leaving still available for contracts \$564,000,000. He said the \$1,816,000,000 was intended to supply ammunition, upon revised estimates of the quantities needed for 2,000,000 men, including the ammunition needed for the French mortar. He said \$300,000,000 additional is asked as the result of changes in the military program, including new requirements for a larger number of shells for ammunition for guns mounted on tanks, and \$7,000,000 for a plant designed for the filling of projectiles with gases and \$2,000,000 for a plant for the same purpose to be erected in France.

At his examination before the committee, Chairman Sherley's report said, General Wheeler of the ordnance bureau brought out that the government had an arrangement with the French to supply artillery and ammunition to a certain number of American troops arriving in France, but after these units are supplied the United States would fully equip additional troops.

America's resources, General Wheeler testified were sufficient to meet all war needs. He asserted the war department had a billion dollars worth of ammunition contracts.

Major General Squier, chief signal officer, testified the signal corps had spent or obligated all the \$640,000,000 appropriation and was in need of obligations that will equal \$90,000,000 in addition and may go beyond that, for the present fiscal year. He asked \$277,732,000 to procure bombs for the aeroplanes.

Discussing storage and shipping facilities, General Goethals said approximately \$100,000,000 with authorization of \$50,000,000 more is needed for storage of quartermaster supplies along the seacoast, inspecific terms.

Federal Food Administrator H. C. Hoover said the combined food and fuel administrators so far have had total appropriations of \$5,515,000, out of which there has been an actual expenditure of \$1,935,429 and there are now outstanding obligations of \$2,272,383, leaving \$1,307,191 balance. He asked \$2,000,000 more now. He said he and Dr. Garfield, fuel administrator, were agreed that the two administrators should be separate. He said the combined fund was divided in the (Continued on Page 2, Col. 3.)

## POPE DISCUSSES WILSON MESSAGE WITH SECRETARY

(Associated Press Telegram)  
Rome, Wednesday, Feb. 13.—Pope Benedict and Cardinal Gasparri, the papal secretary of state, discussed President Wilson's latest message to congress today, after which Cardinal Gasparri appeared to be satisfied about the effect the message probably will have.

Cardinal Gasparri is reported to have said the message gives reason to hope that it may lead to parleys and prevent a further offensive.

He is said to have added that the message perhaps was a starting point for negotiations for a just and lasting peace.

The Belgian minister to the Vatican called upon Cardinal Gasparri at noon. He expressed satisfaction with the president's message.

## POSSES AFTER DRAFT EVADERS AND MURDERERS

(Associated Press Telegram)  
Bisbee, Ariz., Feb. 14.—Two troops of United States cavalry and posses from half a dozen countries were co-operating today in an effort to capture Thomas Powers, John Powers and Thomas Sissons, sought for the murder of three Graham county officers in a fight in the Graham mountains last Sunday. The fight occurred when the officers, led by Deputy United States Marshal Frank Haynes, attempted to arrest the Powers brothers as alleged draft evaders. Jefferson Powers, father of the Powers brothers, who joined them in the fight against the officers, also was killed. Haynes escaped uninjured. Rewards totaling \$4000 have been offered for the capture of the fugitives.

## ENORMOUS LOSSES SUFFERED BY THE AUSTRIAN TROOPS

(Associated Press Telegram)  
Rome, Wednesday, Feb. 13.—Although the Austrian press in the last few weeks has been referring to preparations for an offensive which they say the Italians are making as justification for the assertion that it is impossible to withdraw men or guns to help Germany in an effort in France, Field Marshal Boerovic, the Austrian commander, apparently wishes to bring an end to the period of inactivity. He is resuming his battering ram tactics in the mountain section.

In the last three days the Austrians have engaged in vigorous actions against the new Italian line in the Frenzella and Bella valleys where important positions were wrested from the Austrians a short time ago. The enemy preceded his infantry attacks by violent bombardments but the Austrian infantrymen attempted to press forward, as they did in the Bella valley by advancing into the Solle and Vallette woods, they came under the fire of Italian light and medium artillery and machine guns which compelled them to beat a retreat with enormous losses before even reaching the Italian trenches.

The Austrians met with another equally severe check in the Frenzella valley yesterday.

In the course of this fighting Lieutenant Razza, an aviator, brought down two enemy aeroplanes, increasing the number of his victories in aerial encounters to 16.

## OFFERS PALACES FOR NATIONAL USE.

(Associated Press Telegram)  
London, Feb. 14.—King George the Daily News says, has offered three royal palaces for national use. They are Balmoral Castle for wounded soldiers and Buckingham Palace and Kensington Palace for public officers. The government has not taken any action on the offer.

Balmoral castle is near Perth, Scotland. Buckingham palace and Kensington palace are in London. Since 1833 Buckingham palace has been the London residence of the sovereign. Kensington palace, on the west side of Kensington gardens was erected in 1693-91. The late queen Victoria and Queen Mary were both born in Kensington palace.

## ARE PREPARING FOR REOPENING OF HOSTILITIES

(Correspondence Associated Press.)  
French Front, Friday, Feb. 1.—Like two boxers seated in opposite corners taking deep breaths and being sponged down while awaiting the next round, the German and Franco-British armies on the frontiers of France and Belgium at the present moment in their opposing positions are preparing for the reopening of the gigantic struggle which went on throughout 1917 and ceased only temporarily while "time" was called by winter.

Each army has probably a fairly accurate idea of the other's strength. The French and British know they have facing them 155 German divisions, 85 of which are in front of the French and 70 in front of the British lines. (Since this dispatch was written there has been a considerable increase in the German strength on the western front. A cable last night from the same correspondent said the Germans now had on the western front 175 divisions or about 2,100,000 men.) To give the total forces of the allies' side might possibly afford some indication to the enemy.

When the initiative may come when weather conditions permit a resumption of fighting on a large scale cannot for the time being be predicted, but it appears probable that these millions of soldiers must again come to close grips early in the year. Comparison with a boxing contest is not exactly correct, for in the intervals in the rounds the armies continue to harry each other. Ever since the battles of Malmaison and Cambrai almost constantly, each side trying to find out the weak spots of the other or making feints to discover the intentions of the opposing army. In Lorraine, in Alsace, before Verdun, in Champagne and even around St. Quentin, the Germans have attempted trench raids of more or less importance very frequently during the past few weeks, sometimes with strong artillery support and on other occasions purely surprise attacks by infantry units. In all these attacks they have been unsuccessful while on the other hand, the French in their raids into the German lines have generally been able to carry out their entire plan of reconnaissance and have returned to their lines only after destroying the enemy's works and usually bringing back with them a batch of prisoners.

The result of all these small combats can be seen only after the general engagement has begun. For the very favorable positions for what ever may occur. As a sequel to all the heavy fighting in the fall they obtained possession of numbers of the highest points and the best observation posts and they have since held them with the firmest of grips and even in some places improved their positions. There they await the continuation of the battle with the greatest confidence.

## NO CAUSE FOR ALARM OVER FLOOD WATERS

(Associated Press Telegram)  
Columbus, Feb. 14.—Reports from various points over the state, received by the United States weather bureau this morning, indicate a general improvement in the flood situation. A slight rise is reported in the Scioto river at Chillicothe, but weather bureau officials declare that it was anticipated and that there is no longer cause for alarm. Waters of the Scioto, Sandusky and Muskingum rivers are either at a standstill or receding for the most part.

## TO INVESTIGATE CONTRACTS FOR NEW SHIP YARDS

President Directs Attorney General to Proceed at Once

## NEARLY \$42,000,000 GOVT. MONEY INVOLVED IN PROJECT

Yards Are Located On the  
Delaware River Near  
Philadelphia

(Associated Press Telegram)  
Washington, Feb. 14.—President Wilson today directed Attorney General Gregory to investigate the much discussed Hog Island ship yard contracts, which have been adversely criticized before the senate commerce committee and determine if there has been any criminal misuse of government funds.

The president also directed the attorney general to work in conjunction with Chairman Hurley, of the shipping board in his investigation. About \$42,000,000 of government money has been involved in the Hog Island project in which the American International Corporation, headed by Frank A. Vanderlip, president of the National City bank has figured.

The Hog Island ship yard on the Delaware river near Philadelphia is planned to be the greatest, in the country with more than fifty ways on which to lay down ships. The American International Corporation, through its subsidiary corporation, International ship building corporation, has contracts for its construction and for ship building there under the emergency fleet corporation act, for the United States shipping board.

Testimony before the senate committee, investigating the whole subject of shipping contracts, has developed statements that the government will be obliged to spend between \$40,000,000 and \$50,000,000 where government and civilian experts estimated \$21,000,000 would suffice.

It has developed, among other things, that the senate committee hearing that Colonel Black, of Philadelphia, one of the former owners of Hog Island, got \$2,000 an acre for his property whereas a year ago he had an option on Hog Island at \$1,000 an acre. One of the principal points of attack on the International Shipbuilding corporation in the senate committee's investigation has been that by its contract with the emergency fleet corporation it would receive a fee of \$6,000,000 for the "know how" of building the ship yard and getting out the ship.

Mr. Vanderlip's name was brought into the investigation as being president of the mother corporation and as having countersigned the contracts.

Charles A. Plez, vice president of the fleet corporation said in his testimony before the committee that there has been extravagance in building the yard.

There has been a great deal of pressure in the senate committee to have the government take over the ship yard and continue the work itself.

Investigation by the department of justice was recommended by Chairman Turley of the shipping board who asked that an assistant to the attorney general be sent to Hog Island to work with Assistant General Manager Bowles of the emergency fleet corporation. Mr. Bowles was put in active charge of the yard recently.

Mr. Bowles has been directed by Chairman Hurley to put the Hog Island yard on an economic basis. Shipping board officials are of the opinion that there has been nothing worse at Hog Island than inefficient management and a reckless spending of funds but they want to ascertain all the facts.

## BEAUTIFUL HAIR, THICK, WAVY, FREE FROM DANDRUFF

Draw a Moist Cloth Through Hair  
and Double Its Beauty  
At Once.

Save Your Hair! Dandruff Dis-  
appears and Hair Stops  
Coming Out.

Immediate? — Yes! Certain? — That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous, and beautiful as a young girl's after an application of Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, charming lustrous hair, and lots of it, if you will spend a few cents for a bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—Advertisement.

### To Stop a Persistent, Hacking Cough

The best remedy is one you can  
easily use at home—cheap,  
but very effective.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hanging-on bronchial cough year after year, disturbing their sleep and making life disagreeable. It's so needless—there's an old, home-made remedy that will end such a cough easily and quickly.

Get from any druggist "2½ ounces of Pinex" (60 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar, up. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. It has promptly loosened a dry or tight cough, soothed the inflamed membranes that line the throat and bronchial tubes, and relief comes almost immediately. A day's use will usually break up an ordinary throat or chest cold, and for tracheitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and is used by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation, The Pinex Co., Ft. Wayne, Ind.

### Alkali in Soap Bad For the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulitised coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulitised coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

## FORMER BRITISH AMBASSADOR HERE DIES AT OTTAWA, CAN.

(Associated Press Telegram)  
Washington, Feb. 14.—Diplomatic Washington was shocked today by the news of the sudden death in Ottawa, of Sir Cecil Arthur Spring-Rice, who retired after nearly five years service as British ambassador to the United States last month in favor of Lord Reading.

Although it had been known that Sir Cecil had desired for a long time to be relieved of his heavy duties, no intimation was given when he left Washington that he was in ill health.

However, officials here pointed out that he had been under tremendous strain from the responsibilities devolving upon him, especially during negotiations on the operation of the allied blockade before the United States entered the war.

It was known that Sir Cecil tendered his resignation during the visit here by Arthur Balfour to take effect at the convenience of the foreign office. His retirement was announced from London, January 2.

Sir Cecil, who became British ambassador here May 6, 1913, succeeded Viscount Bryce, was born in 1859, and spent many years in the British diplomatic service. He came to Washington first as third assistant secretary of the embassy in 1886 and was appointed acting secretary to act as secretary to the British delegation to the international marine conference August 27, 1889.

After serving for a time at Brussels and Tokio he was again transferred to Washington in 1893. He was successively chargé d'affaires and minister to Persia from 1900 to 1908. He then became minister to Sweden and left Stockholm to accept the ambassadorship here. His early services here were remembered during the days of Lord Pauncefoot. He was created K. C. M. G. in 1906.

Sir Cecil's difficult task here during the early years of the war in inducing the American government to accept with equanimity the oppressive regulations of the entente blockade was some of the most ingenious and remarkable state papers in the history of foreign intercourse found their origin in the British embassy here in support of the policies resorted to meet Germany's disregard of the established rules of warfare.

### HAD PEACEFUL DEATH.

(Associated Press Telegram)  
Ottawa, Feb. 14.—Death came peacefully to one of the most prominent of Sir Cecil Spring-Rice until recently the British ambassador to the United States. The diplomat passed away while virtually in his sleep at government house, in the presence of Lady Spring-Rice and their children, Betty, aged 11 and Anthony, aged 9 years.

Sir Cecil had complained of not feeling well and Doctor Thomas Gibbons was summoned shortly after midnight but the patient expired from heart failure not long after he arrived.

Funeral services will be held for Sir Cecil in St. Bartholomew's church here Saturday afternoon and his body will be buried in Ottawa. His Lordship Bishop Roper will conduct the service.

# Eight Percent and Carefully Safeguarded

A security, yielding eight percent, free from normal Federal income taxes and from personal property tax in Ohio.

Secured by \$136 of quick assets (\$320 of total assets) to every share issued and outstanding.

## The Goodyear Tire & Rubber Co. 8% Cumulative Second Preferred

The present offering is \$15,000,000 of an authorized issue of \$25,000,000. It is protected by adequate safeguards, and provides the investor a liberal dividend-return and an attractive retirement plan.

The essential facts about the issue are presented below. A descriptive booklet (illustrated) will be sent to any inquirer for further information.

Price, \$100 (par value) per share.

### The Essential Facts

Par value. \$100 per share.

Dividends payable quarterly, on the first day of February, May, August and November.

Tax free (personal property and normal income taxes) in the State of Ohio.

Non-assessable; preferred both as to assets and dividends, following only the first preferred, with no precedent bonds or mortgages.

Retirement—The \$15,000,000 of the present issue is to be retired within ten years—ten percent each year. Shares may be bought by the Company in the open market, or called at a fixed price, plus accrued dividends, according to the following schedule:

Before Feb. 1, 1921, at \$105 per share.  
Before Feb. 1, 1924, at \$110 per share.  
After Feb. 1, 1924, at \$115 per share.

Net Assets—Over \$48,000,000, after the sale of \$15,000,000 of the second preferred, and after deducting all debts of the Company, all reserves for depreciation, and the par value of the outstanding first preferred.

Quick Assets—About \$136 for each share issued, after deducting all debts and the par value of the outstanding first preferred. In other words, every share of the issue has behind it cash and items quickly convertible into cash, to the amount of \$136.

Earnings—Over a period of ten years have averaged ten times dividends requirements on stock then outstanding. The company has never missed a dividend; its requirements for both issues of preferred will be somewhat less than \$5,000,000 per year—while net earnings last year were \$14,044,206.10.

Safeguards—The Company must maintain in quick assets, above all debts, notes or other similar evidences of indebtedness maturing later than one year from date of issue, be issued or guaranteed; nor can any additional Preferred Stock beyond this authorized issue be issued without the favorable vote in writing of the holders of three-fourths of the amount of Second Preferred Stock at the time outstanding.

Marketable—It is listed on the Cleveland Stock Exchange, and will be broadly distributed throughout the country—as is the first preferred.

The first preferred has always been readily marketable—quoted by brokers in Cleveland, Cincinnati, Toledo, Chicago, Detroit, New York, Philadelphia, Boston, San Francisco and many other centers.

With the provisions made for redemption of the second preferred, demanding \$1,500,000 par value purchases in the open market each year, its market position should be particularly strong—both as regards ready liquidation and price.

Legality—All legal details in connection with this issue have been approved by Squire, Sanders & Dempsey, of Cleveland.

The present offering is \$15,000,000 of an authorized issue of \$25,000,000. The balance (\$10,000,000) is to be held in the Company's treasury, and sold, if needed later, under carefully drawn restrictions.

No shares beyond the \$15,000,000 are to be issued under the total assets of the Company, over and above all indebtedness, shall be equal to at least 150% and the net quick assets shall be at least 100% of the par value of both classes of preferred stock then outstanding plus the second preferred stock about to be issued.

The information above, while not guaranteed by us, is obtained from sources which we believe to be reliable.

### BOTTLE COMPANY ENCOURAGES MEN TO BUY STAMPS

Supt. C. S. Dayton of the American Bottle Company, has just received a letter from Vice President H. G. Phillips approving his activity in the government's war savings stamp campaign and suggesting the use of the rubber stamp slogan on all documents with which the employees come in contact. Mr. Dayton has been using the rubber stamp on the company's pay envelopes.

In this connection it is interesting to note that the company is inaugurating a plan among the several glass factories and the general office for the sale of Thrift Stamps whereby each factory and office complete separately for the largest total of war savings stamps sold based upon a percentage of the payroll. The factory leading in the contest at a certain date to be determined later is to be given an American flag as a special prize. The Newark plant has already made a good start and hundreds of the Newark employees of the American Bottle Company are buying war stamps regularly. Mr. Dayton keeps a supply on hand at the factory and loses no opportunity to encourage their purchase by the men. Streater will have to go some to beat the Newark employees of the bottle company.

The Centerville school, Granville township, twenty-four pupils, taught by Miss Mary Williams, reports war savings stamp purchases for the month of January \$249, fifty percent above the quota. This is the best country school report so far received and Miss Williams and her pupils are to be congratulated.

The Granville Fuel & Light company has printed on its monthly gas cards "Buy Thrift Stamps and War Savings Certificates for yourself. You can make your money work for you and your country."

Every business house in Granville with two or three exceptions is now selling war savings stamps and several of Granville's professional men are selling stamps. At one of the booths at the big "White Elephant" sale, war stamps will be sold. Yesterday the Welsh Hills grange bought \$100 worth.

Supt. D. A. Leake of the Croton public schools, writes: "This morning we marched the pupils down to the bank and postoffice to invest their money in war savings stamps. Here is the result: High school \$106.25, grammar room \$34.25, intermediate room \$52, total \$192.50."

Supt. E. S. Darnell of the Alexandria schools, writes: "We are glad to help our bit by handling the Thrift stamps. They are on sale and the boys and girls are responding nicely."

First reports on war savings stamps sales: Hebron schools \$660, Pataskala schools \$571.50, Utica schools \$787.75.

Supt. Zwayer reports additional stamp agents as follows: L. E. Clark, Fulton school; Grace Green, Minnecota school; Mario McClellan, Postum Hollow; Hazel Hall, Gertrude Hall school.

### GRANDMOTHER WAS THE DRUGGIST

In the early days of our country grandmother was the druggist, and her drugs consisted mostly of roots and herbs gathered from the fields and forests. There was peppermint for indigestion, mullein for coughs, skullcap for nervousness, thoroughwort for colds, wormwood for bruises and sprains and so on. They were successful remedies, too. It was from a combination of such roots and herbs that Mrs. Lydia E. Pinkham of Lynn, Mass., more than forty years ago, originated her now famous Vegetable Compound; and during all these long years no other remedy has ever been discovered to restore health to ailing women so successfully as this good old-fashioned root and herb medicine.—Advertisement.

## LAST OF THE DRAFT.

The last 15 per cent of the first draft of 500,000 men are now taking their physical exams, and will soon be rigged out as real soldiers. They have escaped the more serious discomforts the earlier levies had to meet.

Probably these boys will be glad to get away and end their long wait for service. They have had whatever misgivings approach the raw soldier, without the stimulating inspiration of the camp life. Now they can forget their blues if they ever had them, in the swelling tide of patriotic fever with which the war camps are flowing.

The new instructions to the exemption boards show that many fussy notions as to physical defects are to be cut out. No more fellows will be rejected merely for bad teeth. The many great husky boys, superb physical specimens that never had had a sick day, must have snickered when the doctors said they weren't fit to go, on account of the condition of their molars. Considering how easily such a defect as enlarged tonsils can be cured, it did seem absurd in the earlier exams. To make such a trifling matter cause for rejection.

Again are being witnessed at our railroad stations the thrilling scenes of departure. It is getting to be rather an old story now, so far as the general public is concerned. But to the boys and the home-folks who must part, it will always be the same event of poignant meaning. It is a day of mingled emotions, of patriotic devotion, of some forebodings resolutely stilled, of hope and determination. Let everyone feel good courage. "Soon the worst turns the best to the brave," says the strong, manly voice of the poet.

## BACKYARD POULTRY.

The government is warmly urging us all to re-establish the chicken coop in the back yard. Formerly almost everyone who had a tiny bit of land kept hens. The cheery voice of chattering fowls awoke us in the morning. The children spent much of the day hunting for nests in the haymow. The housewife had all the fresh eggs that the most lavish cookbook called for. No wonder her muffins and cakes were great stuff in those days of abundant poultry products.

The poultry yard has been somewhat out of favor of late. No doubt the town-beautiful movement tended to discourage it. The ordinary collection of tarred paper sheds and boxes, surrounded by the bare earth of a scratching ground, "littered with fetters, and all surrounded by hen wire, is not an addition to the beauty of the neighborhood.

Still orderly people can keep poultry without making an eyesore out of it. A coat of paint on the coops and a neat fence do not require any great amount of labor. And anyway these are times when aesthetic considerations must be secondary. Some

## ONE OF OUR ALLIES.

(Cleveland Plain Dealer.)

The United States is not at war with Turkey, but Turkey is an ally of America's enemies. It is, therefore, not improper to consider an enemy of Turkey as an informal ally of the United States. Whatever his status in relation to the American republic all Americans may join in congratulating the Arab king of the Hedjaz. He is a sturdy old potentate who does things.

A few years ago the Arab king was a shepherd of Mecca. He was an Arab of purest blood, and claimed descent from the family of Mohammed. Yet his position was that of an unimportant subordinate to the godless Turk. The world war gave him his opportunity to assert himself and to make good his claim of Arab independence. The European nations that are at war with Turkey did not hesitate to recognize his independence and to accept him as an ally.

The Turks have been driven out of the Hedjaz, the Mohammedan holy land, by the indomitable Arabs. Not content with thus establishing their own independence the Arab armies have marched north into Palestine, and are now actively co-operating with the British in that theatre of war. The official announcement of a decisive and overwhelming Arab victory near the Dead Sea is proof that the king of the Hedjaz is no unimportant factor in the war. The Turkish army was beaten in a two-day battle and almost completely destroyed.

If it were possible to reach him the American people would be glad to send their congratulations to the venerable descendant of the prophet. Occidentals are not strong for Mohammedanism but they are ready to admire vigor and independence wherever displayed. We are not at war with Turkey, but our neutrality is of the South American variety, which expresses frank sympathy with whatever is anti-German.

## INCOME TAX RETURNS.

The people who are making income tax returns complain that the system is more complicated than ever. Many men go a long distance to find an internal revenue collector or deputy, and let him put the thing on paper, rather than try to get the thing straight themselves.

Long lines of people waiting for a chance to appear before the revenue men are reported from many places. The deputies do not agree among themselves as to the meaning of the questions or the requirements of the government. There is much cussing and fuming and fretting, and people feel relieved when at last the formidable paper is signed and sworn to and off their hands.

The law was enacted very hastily as a war measure. It is in great need of revision. It should be put in the hands of experts who should reprint a new form removing contradictions and manifest inequities. A smooth working law will help reconcile people to paying the tax. The provisions should be so clear that anyone could make out the blank without having to consult a lawyer or hunt up an internal revenue man.

Someone asks what has become of all those pro-German politicians that were trying to hold up the war work awhile ago. Well, some of them about now are wondering if they can get elected on a campaign of blaming the government for not getting the war preparations along faster.

The man who invented copper-toed shoes for children got \$4,000,000 for his bright idea. But the men who invent anything equally good now would get about \$50 for their patent rights, while the corporations that exploit them take the other \$3,999,950.

Women to take the places of drafted farm help? Anyway, they won't have to sit on the front doorsteps contemplating the scenery until they get their pipes smoked.

After bitterly complaining because our government does not lend him money, our old friend, Wiskers Carranza, sends a nauseous note of congratulation to Kaiser Bill.

## SUBMARINE BASES.

(Buffalo Express.)

The Spanish government is negotiating for the purchase in this country of 400 locomotives which were destined for Russia. They are to be used, it is said, on two roads which serve France and for this reason Spanish authorities in the United States believe that there will be no trouble in obtaining the consent of the war trade board to their export.

As Russia has not paid for the locomotives and there is no prospect of her paying for them, the opportunity of selling them, unless they can be converted to the narrower gauge used in the United States, could be taken advantage of. There is one important matter, however, that should be taken up by the Washington government before it goes any further in favoring Spain with exports of any kind. That is the matter of German submarine bases. There is a belief that there are several such on the northwestern coast of Spain, from which places the pirate can run out and cut across the shipping courses as they converge to French ports.

Spain, being neutral, has a right to carry on trade in her own goods with Germany. In our goods or use our goods as substitutes for her own which she may sell to Germany, our enemies. She may not, however, but Spanish trade with Germany can not amount to anything now, unless it is carried on by means of submarines. German submarines which are strictly merchant ships could carry on trade with Spain without reasonable protest from us, just as surface ships could. German fighting submarines could enter Spanish ports on the same conditions that surface warships could. But this is very different from maintaining supply bases on the Spanish coast.

If such bases are maintained, it must be because Spanish officials are willing to overlook this violation of neutrality laws, for Spain has not a seacoast that cannot be adequately guarded by her army or navy. Thus it is that our government should bring what pressure it can to force the Spanish government to keep her coasts clear of German submarine bases. Pressure can be exerted through Spain's desire to do business with us.

## THE STAGE IS SET—THE ACTORS ARE WAITING THEIR CUE

## U. S. War Stamps Free of All Tax

When preparing for the issuing of thrift stamps and war savings certificates, the national administration wisely decided that they should not be subject to any taxes, federal, state or local. In this respect, they are entirely unique, being free when almost everything else of value is subject to impost.

As the amount that an individual may hold is limited to \$1,000, this concession does not deal unjustly toward other security holders. It is simply an inducement to the small investor to make an unusual effort in his own country's behalf, by depositing as much of his surplus with the government as possible.

Those who buy these little bonds should understand in advance of the coming days of taxation return in April that whatever of their earned savings or surplus derived from thrift stamps and war savings certificates need not be recorded upon the assessor's blank. As the interest and principal are payable in 1923, neither is it necessary to make mention of the investments in the return to the income tax collector.

They are, as stated, absolutely free and, as they also pay 4 per cent compound interest, are the best securities that one can buy in these troubled times.

## Spirit of the Press

**Discipline in Eating.**  
We Americans are fond of good eating. We admit it and in some sections of the country we brag of the meals to which we sit down. We could eat less without suffering actual loss of efficiency. But there are some men engaged in the food industry who will take down their unapologetic extra profit as long as they can. And there are some consumers who will encourage violations of the regulations of the food administration. It is those who should be checked and while Hoover has power through the license plan, to control, to a certain extent, the food situation, he emphatically needs wider powers.—Baltimore Star.

**But Capt. Kidd Was Unkultured.**  
According to a statement made by Andrew Bonar Law in the house of commons on Tuesday, 14,120 non-combatant British men, women and children have been murdered by the German U-boats. In this greatest achievement of piracy the figures, when this war shall have ended and all the nations of the world shall have handed in the long roll of their murdered, will be as exact as unprecedented. And history will write the numerals large upon her scroll. What a verdict there will be for a relentless posterity to render!—Cincinnati Times-Star.

SOCIETY EDITOR, AUTO PHONE 23121.

Miss Mary Miller is entertaining at her home, West Church street, this afternoon with a Valentine party for her nieces—Harriet and Elizabeth Miller. The house has been profusely arranged with valentines and the hours will be devoted to valentine games and a heart-hunt. The luncheon appointments will also be suggestive of the valentine feast.

The guests of Miss Harriet and Elizabeth Miller will be: Esther Jones, Virginia Kloppe, Virginia Nye, Jane Nye, Virginia Stevens and Elizabeth DeCrown.

The hostess will also entertain a few of her friends: Misses Anna and Ida Wiegand, Mrs. Hannah Allen, Mrs. Lucy DeCrown, Mrs. Reeves DeCrown, Miss Edith Clark, Miss Gladys Beecher, Mr. and Mrs. W. P. Miller, Mr. and Mrs. E. C. Miller and Joseph Miller.

A number of the friends of Mrs. Louis Bausch surprised her at her home, North Fourth street, Tuesday evening, with a masquerade party. The hours were informally spent, the costumes affording much entertainment, and a two-course luncheon was served.

The guests were: Mrs. F. C. Christian as Dolly Varden, Mrs. T. Pieri, a bride; Mrs. G. Farquhar as Dinah, Mrs. O. Myers as a bird of paradise, Mrs. O. Wall as Dolly Dimple, Mrs. E. Woodward as an old lady, Mrs. E. Legge as a clown, Mrs. Hoffman in colonial costume, Mrs. C. Bentz as

## RELIABLE PRESCRIPTION

## FOR THE KIDNEYS

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine. It is a physician's prescription.

Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder to do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merits and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention The Newark Daily Advocate.—Advertisement 2-5-7-12-14

WRITTEN ON  
FACES—  
RHEUMATISM

You Can't Hide Rheumatism. It runs up into the nerves, causes the expression in the face, makes you look and feel sicker than you look, you rheumatists understand. But there isn't much of it as there used to be. "Neutrons Prescription 99" has educated us to freedom of all Rheumatism and its many ailments.

"Neutrons Prescription 99" loosens those painful, swollen joints and muscles. You can distinctly feel all trouble leaving you, and comfort and happiness creeping in. There is absolutely nothing else known like "Neutrons Prescription 99" for all Rheumatism.

You can prove it, get a 50c or \$1 bottle of your druggist today.

BETTER HEALTH FROM  
INTERNAL BATHS

Miss Frances Herrod writes Dr. Chas. A. Tyrrell of New York as follows: "I am very glad to tell you that I am now than pleased with the results obtained from the use of the 'J. B. L. Cascade,' and am in better health than I have been in years."

This is but one of thousands of the same kind of letters received by Dr. Chas. A. Tyrrell of New York, the inventor of the "J. B. L. Cascade."

By a purely natural process of properly using warm water, the "J. B. L. Cascade" removes all the poisonous waste from the lower intestine, and physicians agree is the cause of 95% of all human ailments.

Hudson Avenue Pharmacy, R. L. Williams, Prop., 222 Hudson ave., corner Oak street have filled an enormous demand for "J. B. L. Cascade" in the past few years, and will show and explain it to you on request. A free and interesting booklet on Internal Baths, "The Way to Life," is only 20c. Efficient can be obtained at their store free of any cost.—Advertisement.

RHEUMATISM LEAVES  
YOU FOREVER

Deep Seated Uric Acid Deposits Are Eliminated by the Rheumatic Poison Starting to Leave the System Within Twenty-four Hours.

Evans' Drug Store who you all know is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenbur's, the sure conqueror of rheumatism, does not stop all agony, reduce all swollen joints and drive out even the slightest tinge of rheumatic pain, he will gladly return your money without comment.

Allenbur's has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretion and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenbur's, who for many years suffered the tortures of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenbur's decisively conquers this worst of all diseases, and he has instructed Evans' Drug Store to guarantee it in every instance.—Adv.

## Milady's Boudoir

## Flesh-Reducing.

The only satisfactory means of reducing weight are diet and exercise. Breakfast should consist of unsweetened fruit, dry toast and coffee or tea without cream. Eat only lean meats, no potatoes or starchy vegetables and very little or no butter.

Avoid all sweets, pastries and cooked desserts, eating fruit instead and have all the bread toasted. If possible you should have two hours outdoor exercise every day. Brisk walks will help to reduce your weight and skatins is the best possible thing.

Practice the following exercise in your room every night and morning, with the windows wide open, if possible. Begin with a few minutes each time and gradually lengthen them.

Stand erect and kick as high as you can, first with the right foot and then with the left. Repeat the exercise, kicking backward. Bend the body, trying to touch the floor with the fingers and not bending the knees.

Balance on the toes, slowly lower the body to a squatting position; still balancing on the toes, rise to the standing position. Alternately rise and resume the squatting position several times without losing the balance. Lie flat on the back, extend the arms above the head and rise to the sitting position without help of the legs and arms.

Stand with the body straight, raise one knee until it is on a level with the bust, walk rapidly about the room, bringing the knee up as forcibly as possible at each step.

## Our Boys and Girls

The formation of good teeth has to begin in childhood if they are to remain good through life. The best of care should be given the mouth of a child. He must not be allowed to suck his thumb, as that has a tendency to throw the upper jaw out of line with the lower one. If he has adenooids so he has to breathe through his mouth, they must be removed or his teeth will not grind against each other as they should. If they do not grind properly they will be very apt to break.

Children should be taught to wash the teeth often and to scrub them with an up-and-down motion of the brush. A side-motion will fail to remove the food particles which lodge between the teeth. If tartar has collected it is better to take the child to a dentist for no brush will remove it, and as long as it remains on the teeth the gums cannot be in a healthy condition. They will be more or less congested, and bleed readily until the tartar has been removed.

A very useful and safe tooth-powder may be made at home by taking a fine quality of precipitated chalk, finely pulverized, with a small amount of powdered castile soap, about six parts of chalk to one of the soap. This may be flavored with a few drops of wintergreen oil, sassafras or cinnamon.

## TELLS MEANING OF RED CROSS HOME SERVICE

Civilian Relief Director Begins Series of Articles Explaining Importance of Assistance to Enlisted Men's Relatives

EDITOR'S NOTE: This is the first of a series of five articles prepared by James H. Fieser, director of civilian relief for the American Red Cross in Ohio, Indiana and Kentucky. The subjects of the other four articles in the series are: "What Red Cross Home Service Is," "Financial Aid in Home Service," "What Has Been Taught Home Service Workers," and "Organizing and Training 30,000 Home Service Commitmentmen."

By James H. Fieser, Director, Civilian Relief, Lake Division, American Red Cross.

Two new words—Home Service—are taking important places in the vocabulary and activity of the 356 American Red Cross chapters in Ohio, Indiana and Kentucky.

At war's outbreak ten months ago to the few chapters then organized Red Cross work and popular knowledge of it centered only around preparation of hospital supplies, equipment of base hospitals and supplying their personnel, and provisions of relief in times of disaster.

Then came the unfolding of a multitude of other chapter obligations—solicitation of war funds, driving for increased membership, organization of school auxiliaries, turning out huge quotas of knitted articles, surgical dressings and Christmas packets.

Among these obligations—model of 1917—was the organization of Home Service committees, better known in some communities as civilian relief committees. Frequently the activities of the Home Service committees were belittled by other chapter committees. This because importance of Home Service had not been clearly defined. Now, through the efforts of the Bureau of Civilian Relief of the Lake Division, headquarters at Cleveland, chapters have come to a clear understanding of the vitalness of Red Cross Home Service in relation to war and complete victory.

But to the general public, notably in the so-called rural communities, Home Service is little better understood than it was by the chapters a matter of five months back.

So, what is Red Cross Home Service and why?

Home Service must be the nation's assurance that the enlisted and conscripted man's family shall not suffer for want of any essential thing within the power of the nation to give.

The Public's Conception. "Yes," says Mr. Average Citizen, "but isn't the government providing war risk insurance, and will it not provide separation allowance where necessary? Isn't it a fact that but few men with dependents have been called to arms?"

Mr. Average Citizen is correct, but he is thinking only in terms of money relief. And it is to convince him that administration of money relief is only one of many features of Home Service that this series of articles on the rudiments of Home Service have been prepared.

Scan this brief summary of the opportunities confronting Home Service committees in your county and you will agree that the opportunities have become the duty and privilege of an upstanding, patriotic, American citizen.

1. Conservation by service of human resources wherever deterioration is threatened in a soldier's or a sailor's home.

2. Temporary relief of families in which there has been a delay in payments, or in which there is an emergency.

3. Responsibility for regular and continued assistance in cases not covered by government allowance—this includes families in need and resident in the United States of men who are in the service of our allies.

4. Personal service to the returned soldier or sailor, especially when he is disabled.

5. An information service which will save time, trouble and anxiety for lonely relatives of enlisted men.

6. Advancement of home standards wherever possible, but especially when the lack of help is likely to cause family disintegration.

Sustains Soldiers' Morale.

"Men may be the best soldiers in the world if I quote you from the Manual of Home Service issued by American Red Cross headquarters, Washington, but if things are not well with their families at home, they lose efficiency through worry, and the morale of the army—that all important factor—begins to fail.

"So it is the patriotic duty as well as the humanitarian opportunity of Home Service workers of the American Red Cross to care for lonely families of our fighting men. It will be remembered that they sometimes 'fighting men' in real earnest. Not only our enemies, but our allies, and the American people as well, will be watching them.

"Every report from the training camps and from the French front mentions the excellent spirit of our troops. Will they maintain this morale while thousands of miles from home, through trench life and battle, to the victorious end?

"THE ANSWER WILL BE DETERMINED LARGELY BY THE HOME SERVICE OF THE AMERICAN RED CROSS."

Even in our vaunted Army of Democracy it is necessary for the private to salute his superior.

## This Is Our Winter of Test

SERVING food is a local problem for each community. Prices and definite rules for every one cannot be formulated. It is a duty for each one to eat only so much as is necessary to maintain the human body healthy and strong. This winter of 1918 is the period when it is to be tested here in America whether our people are capable of voluntary individual sacrifice to save the world. That is the purpose of the organization of the United States Food Administration—by voluntary effort to provide the food that the world needs.

U. S. FOOD ADMINISTRATION

## NEED BIG HERDS

Europe's Meat Supply Must Come From America.

Warring Nations Have Depleted Live Stock at Enormous Rate, Even Killing Dairy Cattle For Food.

American stock breeders are being asked to conserve their flocks and herds in order to meet Europe's tremendous demands for meats during the war and probably for many years afterward.

The United States food administration reports that American stock raisers have shown a disposition to co-operate with the government in increasing the nation's supply of live stock.

Germany today is probably better supplied with live stock than any other European nation. When the German armies made their big advance into France and then retreated virtually all the cattle in the invaded territory—approximately 1,800,000 head—were driven behind the German lines.

But in England—where 2,400,000 acres of pasture lands have been turned into grain fields—the cattle herds are decreasing rapidly. One of the reasons apparently is the declining maximum price scale adopted by the English as follows: For September, \$17.75 per 100 pounds; October, \$17.25; November and December, \$16.08; January, \$14.40. The effect of these prices was to drive beef animals on the market as soon as possible.

In France the number of cattle as well as the quality have shown an enormous decline during the war. Where France had 14,807,000 head of cattle in 1913, she now has only 12,341,900, a decrease of 16.8 per cent. And France is today producing only one gallon of milk compared to two and one-half gallons before the war.

Denmark and Holland have been forced to sacrifice dairy herds for beef because of the lack of necessary feed.

Close study of the European meat situation has convinced the Food Administration that the future problem of America lies largely in the production of meat producing animals and dairy products rather than in the production of cereals for export when the war will have ceased.

## BRITISH GOVERNMENT HELPS PAY FOR BREAD

There has been much misunderstanding about the bread program in England. It is true that the Englishman buys a loaf of bread for less than an American can, but it is poorer bread, and the British government is paying \$200,000,000 a year toward the cost of it.

All the grain grown in Great Britain is taken over by the government at an arbitrary price and the imported wheat purchased on the markets at the prevailing market price. This is turned over to the mills by the government at a price that allows the adulterated wheat bread loaf of four pounds to sell at 18 cents, the two pound loaf at 9 cents and the one pound loaf at 5 cents.

In France, under conditions somewhat similar, but with a larger expenditure, the four pound loaf sells for 16 cents.

## MAKING MEATLESS DAYS PERMANENT.

In the meatless menu there is a fertile field for developing new and nourishing dishes, according to E. H. Niles, writing in the Hotel Gazette, who believes that the present shortage of meat and fats will not end with the coming of peace, but may grow more acute and continue for five or six years, thus making it worth while to develop menus of grain, vegetables and fish on a more or less permanent basis. Meat can be replaced by cereals and other protein foods, or may be served in very small portions as a flavoring for other food. In making up meatless menus this author finds our American Creole and southern cuisine a broad field for investigation.

The trouble with the chronic kick-er is that he is so apt to kick a man behind his back.

## Sir Walter Raleigh's Creditors Were Growing Impatient

His poker debts were enormous. The situation was serious. His eyes fell upon the muddled cloak which that very morning had saved Queen Elizabeth a public footbath. "I'll pay the blooming blighters," he chuckled. Next day he had disposed of the garment for a tidy sum to a dealer in relics through an ad. in The Advocate classified columns.

Talented and Fascinatingly Piquant Daughter of the Famous French  
Star with the Naughty Eyes "That Just Won't Behave."

COMPANY OF FIFTY, INCLUDING LEADING BROADWAY ARTISTS  
AND THAT BEWITCHING ANNA HELD CHORUS—SIRENIC SYLPHS  
SURPASSING THE NYMPHS OF PARADISE IN THEIR LASCIVIOUS,  
LAVISH LOVELINESS. A FORTUNE IN ANNA HELD GOWNS THAT  
SET WORLD FASHIONS. Melody! Mirth! French Spice! American Wit!

Manager's Note—To keep faith with the public, Anna Held's daughter, who has been appearing in the principal role during Miss Held's illness, is advertised to appear, although it is expected that Miss Held will be able to rejoin her company here. However, Miss Carrera has scored a remarkable success in the role and has accomplished the most perfect imitation of her famous mother that has ever been offered on the stage, and the production, with its fortune in gowns and scenic splendor, will be exactly the same as scored so heavily in New York last season and which won renewed triumphs on its present tour from coast to coast and return—the only musical comedy production to survive such an extended tour in war time. Withal, owing to the uncertainty of Anna Held herself appearing, I have made special prices, through her consent, and these will prevail even if Miss Held is able to appear. Most of the choicest downstairs seats will be sold at \$1.50 and there are many at \$1.00, making this offering the biggest bargain of the season. GEO. M. FENBERG.

## AMUSEMENTS

**AUDITORIUM.**  
Daddy Long Legs Tonight.  
Miss Jean Webster, author of "Daddy Long Legs," told an amusing story of her inspiration for the book which she dramatized for Henry Miller, and which Mr. Miller is sending to the Auditorium tonight.

It was in Provincetown, that picturesque village on the tip end of Cape Cod, that I received the inspiration for the title of my book that has become Mr. Miller's play. I was a visitor in the home of a member of my publishing firm, the Century company, when suddenly a daddy long-legs dropped from the ceiling. "There," I exclaimed, "is a good title for a story. I must write one to fit it. Later, a binding with its cover decorated with a daddy long-legs came to me from my friend, the publisher, as a reminder of my promise. And so I wrote the story.

"That same publishing company told me a rather pleasant incident in connection with the success of the book. Some reporters were sent to interview Woodrow Wilson when he was running for President. When they arrived he told them he was too weary to talk politics but he would tell them all about a story he'd been reading. That story was "Daddy Long Legs." He was

rich, nor, as I remember it, were we very poor.

Anna Held's father dies and her mother became an invalid, so mother and daughter moved to London where they had relatives. They had rooms near the Princess Theatre and one day the manager asked Anna if she wanted to go on the stage. As her mother was very ill, Anna went into the chorus, for which she received five shillings a night, which with what she earned during the day, curling, pinning, added to their comforts at home. Anna worked hard, learned all the parts in the various pieces and eventually was given small parts to play. Just as Anna's burdens were lightened, her mother died. The Princess Theatre company went over to Holland and she traveled with it. She remained in Amsterdam after the company returned to London and afterwards visited Rotterdam, Christiana, The Hague, and the larger cities in Germany, singing chansonsettes.

At that time Anna was 15 years old and had been earning her own living for some years. She returned to Paris and sang at the Eldorado and LaScala halls, and eventually played parts in the operas. She studied voice with Calve's teacher and dieties with other

A Dancer Appearing in Anna Held's Company, Auditorium, February 20th.

even more enthusiastic about the play when he saw it a few months later in Washington.

The New Haven Journal-Courier says: "Daddy Long Legs" one of the most delightful plays that has been here this season, made its second appearance at the Chubert theatre last evening and will be repeated for the balance of the week with two performances of Saturday. "Daddy Long Legs" is a play with an appeal, a play full of laughter and tears, clock full of human touches. If you have not seen it you should not miss the opportunity of doing so. If you have seen it, we still have the temerity to observe that you can afford to witness it once again."

Owing to the large crowds yesterday and the great satisfaction the picture of Jack and Jill, with Jack Pickford and Louise Huff, gave, Mr. Fenberg is holding it over for tomorrow (Friday) and will show it together with another celebrated Paramount star, Vivian Martin, who will be seen in "The Sunset Trail," making a big double program for Auditorium patrons. "Sunset Trail" is a story of life in California and the mountain scenery is beautiful and in the cast besides the star is seen such clever Paramount stars as Henry A. Barrows, Harrison Ford, Charles Ogle, Carmen Phillips, Billy Elmar, etc. The story by Alice McVar was prepared for the screen by Beulah Marie Dix and tells of Bess Aiken who lives with her father and mother high in the California mountains. The mother, an ex-actress, tires of her humdrum existence and leaves with a new admirer, Treloar, whose nephew Bess has met also. Later when her mother invites Bess to visit her, she meets the young nephew, Kirke, again. Soon after that Camilla, the mother is caught in a compromising position with a man and Bess makes the sacrifice of her own reputation to save her mother. How matters are eventually readjusted is brought about in a most unexpected manner. This double program all for the one price of admission, should not be missed. Remember, it's the Auditorium tomorrow.

**Uncle Tom's Cabin.**  
Kibble's grand superb spectacular revival of that everlasting old play, "Uncle Tom's Cabin," which will be seen at the Auditorium on Monday afternoon and evening, promises to be a theatrical treat in every sense of the word. The company this year is bigger, better and brighter than ever and numbers over fifty people, among which are twenty negroes from the sunny south, who have been especially engaged to fill out the many pretty pictures of the play and present famous songs, dances and plantation "shines." So thorough and pleasing has been the production under this management that the press and public have unanimously sung its praise, and thousands upon thousands have attended. It requires two 70-foot cars to transport the special scenery, 20 head of horses, ponies, donkeys, burros, bloodhounds, job cabin and other numerous novelties to make it the largest production of "Uncle Tom's Cabin" ever attempted by anyone.

Anna Held, seven times claimed the honor of being the birthplace of Homer. There is the same uncertainty concerning Anna Held's birthplace, though the actress protests that she was born only in Paris, and positively nowhere else. Hear her own words of violent protest: "No, no, no I was not born in Belgium, nor in India nor in Warsaw. I have been asked that question so many times that I am what you call peevish. I have been asked whether I was born in France, Lorraine or in Poland. Why should I have been born anywhere else than Paris? Were not my parents living in Paris? I was a doll manufacturer in the Faubourg of Paris. We were not

famous instructors. While singing at the Palace in London, an American manager heard her and made her an offer for America. Miss Held asked an enormous salary—for those days, but they accepted and she made her first appearance in New York in "A Parlor Match" in which Evans and Hoey were starring at the Herald Square theatre. It was in "A Parlor Match" that Anna Held made the hit of her career by singing "Won't You Come and Play With Me," a song which Mr. Plumptre, one of the directors of the Palace Music Hall in London, had devised for her. Miss Held's American successes have been "Papa's Wife," "Miss Innocence," "Mlle. Napoleon," "The Little Duchess," "The Parisienne Model" and her latest triumph, "Follow Me," which she believes gives her greater opportunities than any of the others to set forth the Anna Held art peculiarly her own and which gives her rank as the peer of all other musical comedians.

"Follow Me," direct from the Casino, New York, is to be on view at the Auditorium, Wednesday, Feb. 20th. Mail orders now, with seats on sale Monday.

**Auditorium Notes.**  
There still remains many choice seats for "Daddy Long Legs," although the advance sale is quite large. This is Henry Miller's special company and is personally guaranteed by the Auditorium management.

Jack and Jill, with those two clever stars Jack Pickford and Louise Huff, that proved a winner Wednesday, is being held over at the Auditorium and will be shown again Friday together with Vivian Martin in "The Sunset Trail," making a big double feature program.

The Anna Held engagement next Wednesday should prove an event in Newark, for it is said to be the classic of the season as to beauty in its girls, and its wonderful gowns, said to be the most gorgeous ever shown on the stage.

Fuelless Monday will be in order in Ontario and Quebec, beginning Feb. 18. They tried to close theatres in that country for three days, but the theatre managers succeeded in making it Monday only.

The picture "Remaking of a Nation," visualizing training of the soldier, made a profound sensation with its projection for an assemblage of high officials in Washington, D. C., last week. This feature opened a tour of Ohio at Cleveland last week and the Auditorium is promised an early showing. The entire picture was taken at Chillicothe and many of our boys are seen in the feature. It is rumored that when it comes to Newark a local prominent personage will lecture with the feature.

The Lee Kids, always a drawing card to Newark, will be seen Sunday in "Tommydickers," their latest standard picture. It is shown together with the latest Mack-Sennett Comedy, "Watch Your Neighbor."

The Hearst-Pulse News to be shown Saturday is said to be full of latest "Over the Sea" events. General Pershing's men are shown, also much other war events.

Seats for Uncle Tom's Cabin go on sale Friday morning. A popular matinee is to be given Monday afternoon. This is the Wm Kibble company, now playing in Columbus, coming direct from that city to the Auditorium.

**ALHAMBRA.**  
Tonight.  
"Stolen Hours" is a movie treat. With charming Ethel Clayton as the winsome star, it brings joy to the hearts of spectators, puts a song on their lips and sends them back into the world smiling, happy and contented.

Friday and Saturday.  
"The Imposter" is a drama of mistaken identity. In it the authors, Leonard Merrick and Michael Morton, have tried to show the dilemma of a young woman of refinement who is stranded

in the heart of New York without means and without friends.

The unfortunate Mary Fenton, impersonated by Anna Murdock, half starved, she accosts Charles Owen, a young married man, whom she meets in the street, and his chivalrous by nature but weak, takes her to his hotel apartment where he gives her food and learns the story of her misfortune.

Becoming sympathetic he also imagines himself in love with the pretty demure and then, being caught in a compromising situation, according to his code, he passes the girl off as his wife's sister. This leads to complications.

Sunday, Monday and Tuesday.  
Though in no measure belittling her success in "The Birth of a Nation" and "Intolerance," in which she made her rapid rise in the motion picture world, Mae Marsh was elated at the opportunity to play the role of a sweet, romantic girl, afforded her in "Polly of the Circus," Goldwyn's first production. Perhaps every actress who is herself petite and dainty aspires to play the part of a lovable heroine. Miss Marsh did, but she had not previously had the chance to select her parts and those selected for her were not always of the sweet heroine character.

**LYRIC.**  
The Cornell-Price Players are presenting their feature play of the week tonight, "The Traffic," one of the greatest of all white slave plays, only one performance of the play will be given tonight, owing to the length of the play. There will be the usual vaudeville numbers introduced between the acts. On Friday matinee and night, the comedy drama, "The Elopement," will be presented, and the usual Country Store will be held after the night performance.

February 16. Full attendance is  
required. Come out. Matthew  
Bausch, captain.  
Mr. Coleman's Address.  
The Advocate desires the present  
address of Fred Coleman, 97 Bremen  
street, who recently entered military  
service. The Advocate has a service  
medal for Mr. Coleman. Call Auto  
phone 25132.

**Telephone Company's Meeting.**  
The annual meeting of the stock-  
holders of the Newark Telephone  
company will be held February 18,  
for the election of directors.

**Team Run Away.**  
A team belonging to J. S. Jones  
of the Granville road ran away this  
morning. The horses were coming  
down Granville street when the driver  
could do nothing with them. At  
Fourth and Locust streets the wagon  
hit a pole and bent the back wheel  
so badly that it was impossible for  
the team to continue running. One  
of the horses had its hoof badly cut  
and had to be taken to a veterinarian.

**Is Seriously Ill.**  
Mrs. B. F. Brown, Oakwood ave-  
nue, is seriously ill.  
**Three Drunks.**  
Three prisoners, charged with  
drunkenness, made up police court  
Thursday morning.

**Mrs. W. C. Miller II.**  
Mrs. W. C. Miller, Hudson avenue,  
has been seriously ill at her home for  
the past few days. Dr. Charles Ham-  
ilton of Columbus, was called in con-  
sultation yesterday. Mrs. Miller is  
resting a little easier today.

**Daughters of Veterans.**  
The Daughters of Veterans will  
meet in regular session tonight at  
7:30 o'clock in the G. A. R. hall.  
**Sergeant Gregg Here.**  
Sergeant Fred Gregg, formerly of  
Utica, but more recently living in  
Columbus, is home from Camp Sheri-  
dan on a short furlough. He is vis-  
iting his sister, Mrs. Wilbur Wilson  
of Utica, and friends in Newark.

**Spring on the Way.**  
Spring seemed a reality today and  
heavy winter clothes seemed a bur-  
den. The Mountbuilders and Coun-  
try club sent out an invitation to its  
members to assemble for a golf  
game for the greens are indeed  
green, the ice and snow having dis-  
appeared.

**THE COURTS**  
**Justice Jones' Court.**  
Robert Foster of Near Johnstown  
who was arrested yesterday by Con-  
stable Emmett Forgraves on an af-  
fidavit filed by Humane Officer  
Thomas Bucy charging him with ill  
treating his live stock and who plead-  
ed not guilty to the charge in Justice  
D. M. Jones' court yesterday after-  
noon, changed his plea to guilty and  
was fined \$25 and costs by Justice  
Jones. The fine and costs both were  
paid and Foster was dismissed.

**Amended Petition Filed.**  
In the case of Bernice D. Sigler vs.  
Frank P. Goolley, guardian of H. M.  
Goolley an amended petition was  
filed late yesterday afternoon in  
common pleas court. The action  
came into this court by appeal from  
the docket of former Justice Fletcher  
S. Scott's court. The plaintiff says  
that the defendant is the duly ap-

**Allowed Decree.**  
The divorce case of Cora Connell  
against Frank Connell was heard this  
morning in probate court. The peti-  
tion was filed by the plaintiff on  
the charge of gross neglect. The de-  
cree was allowed and the plaintiff  
was given the care and custody of  
the three minor children and \$20  
per month permanent alimony.

**GRANVILLE**  
(Special to The Advocate.)  
Granville, O., Feb. 14.—It is won-  
derful to consider the pitch of inter-  
est and enthusiasm felt by the entire  
community in the big white elephant  
sale and carnival, for the benefit of  
the Red Cross and A. F. F. relief  
work, which opened at 1 o'clock  
this afternoon. Everybody has done  
his bit; the various committees have  
accomplished marvelous work. "Every-  
body has worked, even father," but it has  
been upon the central committee that  
the sustained burden of responsibility  
has rested, and everybody is proud  
of the efficiency and initiative dis-  
played by these young mayors.  
From time to time tribute has been  
paid, in this column, to individual  
workers or contributors, but it would  
require many columns of space to  
mention in detail all these who have  
contributed so generously to this  
call, and have made the carnival a  
success it is bound to be, whatever  
the financial returns may be. Every  
community needs a common cause to  
unify and harmonize its many ele-  
ments, and war work is the one big  
cause that can do it. The 30 or 40  
people in the sales and amusements  
departments spent the morning in  
the garage and were the first cus-  
tomers to be served at the lunch-  
counter, where they found every-  
thing to the queen's taste. At 1  
o'clock the doors were opened and  
the big room—50x100 feet in dimen-  
sion—was soon filled with a repre-  
sentative crowd of townspeople and  
visitors. The tea room, presided  
over by Mrs. C. W. Chamberlain and  
Mrs. J. S. Jones, proved to be a  
focus of social attraction. Auc-  
tioneer stunts by Rev. L. P. Frank-  
lin and Clay Van Voorhis of Newark,  
are features of today's and tonight's  
sessions. Gratifying, too, will fur-  
nish his quotas of talent in this line.  
Bargains are "going like the dew."  
stunts are proving amusing and di-  
verting. The Victrola, loaned for  
the occasion, has been in constant  
commission "trying" the records  
donated for possible customers.  
The groceries, farm products, and  
canned goods are changing owners.  
Jewelry, silverware, dishes, hard-  
ware, pictures, furniture, books and  
choice articles on the 1, 5, 10 and  
25-cent counters are irresistibly at-  
tractive. Tonight's auction will be-  
gin at 7:30 o'clock. Come and help  
the cause! All four-foot five-  
foot will be auctioned off Friday and  
Saturday afternoons. Chickens will  
be sold at any time.

**EVAN WILLIAMS IN "KERRY DITTY"**  
A whimsical song of sprightly  
flavor is Evan Williams' contribu-  
tion to the February Victor Records.  
"Tim Rooney at the Fightin'" is  
the title; and what more needs to be  
said. This engaging ditty tells of a  
sweet colleen and her loyalty to her  
fighting lover who happens to be en-  
gaged in righting the world's  
wrongs. That he will right them  
and return to her side with his  
softer virtues in the ascendancy is  
the firm belief of his charming  
sweetheart.

One of the most striking ballads  
ever written has been selected by  
Whitehill for his latest Victor Rec-  
ord. "The Two Grenadiers" repre-  
sents Schumann at the height of his  
power. In this wonderful lyric ac-

## MUST OBEY RULES OF FOOD AND FUEL ADMINISTRATIONS

That the rules of the United States food and fuel administrations are going to be strictly enforced, and that the local committees have the authority and power to see that they are enforced to the letter, is evidenced by the action of Fuel Administrator Herzog in ordering a West End saloon closed for one week, as a result of having been kept open last Monday. Upon report having been made to the fuel administration that this saloon, located on the West Side, had been open on Monday, and that drinks had been sold, all contrary to the government ruling, an investigation was made, and the penalty provided for such violation, placed upon the proprietor. The penalty for such violation is to be kept tightly closed for one solid week, or be subject to prosecution by federal authorities. As the penalty was explained to the proprietor of this saloon, he immediately decided to close for the week, rather than be subject to further prosecution.

Any violation of either a fuel or food administration ruling, either by an individual or merchant, will be handled promptly by the local committees.

Members of the Licking County Food Administration committee met last evening in the mayor's office and went over a number of important matters with reference to rulings of the food administration office. It was decided to enlarge the committee by adding a member from each of the other towns in the county, and a special committee was appointed to arrange for these appointments. It is the intention of the committee to arrange for the selection of these members through the merchants of the towns to be represented, where their selections are satisfactory to the committee, it being the desire of the committee that the small towns select their own representative. This will give the committee some authorized representative through whom to work.

Several new rulings were received during the day, and reported to the committee. Advice was received to the effect that the sale and packing of 1-16 barrel package of wheat flour has been reinstated, effective February 11. The minimum package in which flour will be packed from now on, therefore, will be 1-16 barrel, instead of 1-8 barrel, as at present. This change has been made on account of the recent ruling requiring consumers to purchase a specified quantity of "substitutes" with all wheat flour.

Rules regarding the sale of poultry were also received. These provide that dealers in poultry shall not, between February 11, 1918, and April 30, 1918, purchase, ship, sell, or negotiate the sale of any live or freshly-killed hens or pullets, provided, however, that this shall not apply to hens or pullets which were either killed or shipped prior to February 11, to markets for sale as food. The rule shall also not apply to purchase or shipment or sale of live hens or pullets for egg-production purposes.

A call over the phone will bring a Hoover or Eureka Vacuum Cleaner with a demonstrator, at no obligation to you. The Avery & Loeb Electrical Co. Auto 1355. 2-14-19

## REV. D. J. SMITH PASSES AWAY AT GRANVILLE HOME

Rev. D. J. Smith died at his home in East Broadway, Granville, Ohio, this morning at 12:30 o'clock after a lingering illness of heart disease. Mr. Smith graduated from Ohio Wesleyan University in 1871 and entered the Ohio Methodist Episcopal Conference where he rendered 45 years of faithful service. He was pastor of the Granville Methodist Episcopal church four years. He served the following charges: Coolville, Pleasanton, Athens, Middleport, McArthur, Royalton, Sedalia, Plain City, New Lexington, Granville, Lilly Chapel, Ironton, New Straitsville, Amanda, Croton and Brownsville.

Mr. Smith is survived by his wife, Eleanor Finley Smith, one daughter, Gertha Lillian, wife of Rev. T. R. Watson of Pataskala, Ohio, and one grand child, Glenn Bertram Watson. The funeral services will be held at the Granville Methodist Episcopal church, Monday afternoon at 2 o'clock.

## JUST AN EXPERIENCE

As I was walking along one of the streets on the South Side last night, I saw something most beautiful and inspiring; it was the large electric cross on St. John's Evangelical church, corner Fifth and Poplar avenue. The light of the cross drove all darkness away and I felt safe and secure. I could see better than ever before the expressions of toil, fear and care upon the faces of those who were returning from their daily work, the cross helped to kindle a ray of sympathy within me. The light of the cross was so penetrating and inspiring that it had the effect of a magnet upon me; I wanted to get nearer to the cross. I obeyed the silent call and drew nearer. When I stood beneath the cross, there came from within the church a message which served as a light for my soul; it was the story of the cross on Calvary. This cross helped me to see the love of Christ and to get the right perspective of life; it made me happy indeed. Then I started home, ward. Life seemed different to me; my home seemed more blessed; I learned to know and to feel that love is the greatest thing in the world, all because I had seen the light of the cross.

A FRIEND.

## Dandruff Scalps Lead to Baldness

If you have dandruff get rid of it quick—it's positively dangerous and will surely ruin your hair if you don't. Dandruff means that the hair follicles are dying and falling out. The only sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, surely and safely there is nothing so effective as Parisian sage which you can get from any good druggist. It is guaranteed to cure dandruff, itching scalp and falling hair, and promote a new growth, or the cost, small as it is, will be refunded.

Parisian sage is a scientific preparation that supplies all hair needs—an antiseptic liquid, neither sticky, or greasy, easy to apply, and delicately perfumed.

If you want beautiful, soft, thick, lustrous hair, get Parisian sage. Don't delay—begin tonight—a little attention now insures abundant hair for years to come.

W. A. FRYMAN, a genuine money refunded if not satisfied.

## NOTHING LIKE PHOSPHATE TO INCREASE STRENGTH, VIGOR AND NERVE FORCE

ORDINARY BITRO - PHOSPHATE WILL DOUBLE THE STRENGTH OF WEAK, DELICATE, NERVOUS PEOPLE IN TWO WEEKS' TIME IN MANY INSTANCES.

Weak nerves quickly reduce the strong and robust to an extremely pitiable condition. They rob men and women of all the joys of life. Slowly and stealthily the health is destroyed, the poor sufferer only realizing the magnitude of his ailment when faulty memory, sleeplessness, indecision, lack of energy or other unmistakable symptoms indicate weak nerves. Then it is a serious and dangerous mistake to resort to the use of so-called tonics, alcoholic or drug stimulants. Weak and exhausted nerves need food and nourishment—not stimulants that lash them into temporary activity. The food and nourishment advised by present day physicians is just one 5-grain tablet of pure bitro-phosphate taken during or immediately after each meal. Simple advice, but its soundness has been proved over and over again. Moreover the remedy is within the reach of every sufferer from weak nerves as a large package of bitro-phosphate tablets (sufficient for two weeks' treatment) can be obtained from Evans and Son, first class druggist at reasonable cost and every package is accompanied by a binding guarantee of satisfaction or money back.

## Best Way to Wash the Hair

We find you can bring out the beauty of your hair to its very best advantage by washing it with Canthrox. It makes a very simple, inexpensive shampoo, which cleanses the hair and scalp thoroughly of all the dandruff, dirt and excess oil, leaving a wonderfully clean, wholesome feeling. After its use you will find that the hair dries quickly and evenly, is never streaked in appearance and is always bright, soft and fluffy; so fluffy, in fact, that it looks more abundant than it is, and so soft that arranging it becomes a pleasure. Just use a teaspoonful of Canthrox, which you can get from any good druggist, dissolve it in a cup of hot water; this makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair, instead of just the top of the head.—Advertisement.
